Extra Security on Credit, Debit and ATM Cards

For your protection we are enhancing the security on credit, debit and ATM cards and it is very important that we have your **current** cell and home phone numbers.

Our protection program monitors your account for suspicious activity. If we suspect fraudulent card use, we will be calling you to validate the legitimacy of the purchase. Your participation and response to our call is critical to prevent potential risk and avoid restrictions we may place on your card. If there's suspicious activity on your account, here's how the process works:

- Our automated call will ask you to verify recent transaction activity on your card.
- You'll be able to respond via your touch-tone keypad.
- You'll also be provided a toll-free number to call if you have additional questions.
- You may also call us at 503-771-2464 to review your card activity.

Card Protection: What You Can Do to Protect Yourself

1. Unless absolutely required for a legitimate business purpose, avoid giving out your:

- Address and zip code
- Phone number
- Date of birth
- Social Security number
- Card or account number
- Card expiration date

Your PIN is private; NEVER give it out.

2. In stores and at ATMs, always cover your card and PIN, and watch for:

- Cell phone cameras, mirrors, or other tools used to view cards and PINs.
- People watching your transactions.
- Cashiers taking your card out of sight; take it to the register yourself instead.
- Any unusual activity at ATMs; if you feel uncomfortable, go to another ATM.

3. Online, you should never respond to unsolicited emails that:

- Ask you to verify your card or account number; such emails are not sent by legitimate businesses.
- Link to websites; such sites can look legitimate but may collect data or put spyware on your computer.
